## **Forensic Chemistry Option: Summary**

The Department of Chemistry and Chemical Biology and the Program in Criminal Justice have created a new option for chemistry majors: Forensic Chemistry. It is intended for undergraduate students with a strong career interest in forensic science.

The option consists of courses offered by the Department of Chemistry and Chemical Biology, the Program in Criminal Justice, and in several other departments. It includes a year-long sequence in Forensic Science and a laboratory in Instrumental analysis. The aim of the program is to ensure that students who complete it will be technically competent, well versed in the scientific principles that underlie their work, and well informed about the societal and institutional criminal justice settings in which they do it.

## Forensic Chemistry Option: Course and Scheduling Notes

- <sup>1</sup> Pre-calculus prerequisite
- <sup>2</sup> By invitation only.
- <sup>3</sup> Chem 309 is offered in the spring only; Chem 310 is offered only in the *fall* only.
- <sup>4</sup> The first semester of General Biology, 01:119 may be offered in the *spring* semester starting in 2016.
- <sup>5</sup> Chem 351 and 352 or 353 may be deferred for either one or two semesters, if desired. Both 351 and 353 are offered *fall*. *Chem 352 is offered spring*. Chem 352 and 353 have Chem 351 and Chem 308 or 316 as pre-requisites<sup>6</sup> Chem 348 has Chem 251 as a pre-requisite. Chem 348 is offered in the *fall* only; Chem 251 is offered both *fall* and *spring*.
