

## Recent News & Updates from the Department of Chemistry & Chemical Biology

### Congratulations to the Class of 2016!

The historic [250th Anniversary Commencement](#) took place on May 15, 2016 with the Commencement Address delivered by President Barack Obama, 44th President of the United States. We would like to wish the best of luck to our [Chemistry Major Graduates](#) along with the entire Class of 2016.

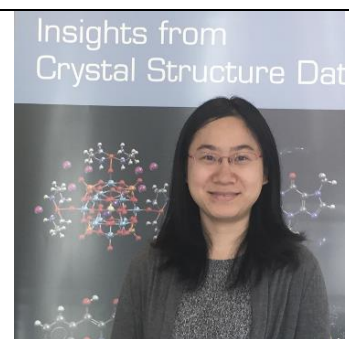

### CCB Distinguished Professor Eric Garfunkel Appointed as Vice President for International and Global Affairs

Congratulations to Professor Garfunkel, the newly appointed Vice President for International and Global Affairs . [Read more](#)

### Welcome Professor Lu Wang

We are excited to announce the latest addition to our prestigious faculty, [Dr. Lu Wang](#) , Assistant Professor. Research in her group focuses on using theoretical tools to determine the structure, dynamics and spectroscopy of condensed phase, especially biologically relevant systems.

### 2016 Undergraduate Achievement Awards

Congratulations to the research presenters and award winners at this year's Jean Wilson Day Celebration of Undergraduate Achievement! A complete list of winners is available on our [website](#) .
