

NITRIC ACID PURCHASING RESTRICTIONS

Due to Department of Homeland Security regulations regarding quantities of chemicals onsite, we must carefully track all levels of nitric acid. In order to do this, please adhere to the following:

- These restrictions apply to nitric acid solutions of 20% or more.
- **ALL purchases must be made by Steve Young.** If the Chemistry Stockroom does not carry the specific grade you require, we will place the order FOR you. Please email your quote, item #, item description, quantity and price to Steve Young and cc Lydia Haynes.
- When your item has been received, Steve Young will email you, and will charge your chemistry stockroom IPO.
- If this is not your first purchase, you are required to give Steve Young your empty bottle before he will release a new one.

There are NO exceptions.
